

Help Us Be Sustainable During Your Stay

Thank you for choosing our thermal center! You can make a difference too. Here are some simple ways to help protect the environment:

In Your Room

- Please avoid daily towel and linen changes unless necessary
- For linen changes, use the **card on the nightstand** whenever you wish — this helps save water and energy
- Turn off lights, air conditioning, and TV when you leave the room
- Use the recycling bins provided

In the Bathroom

- Turn off the tap while soaping or brushing your teeth
- Use thermal water responsibly — it's a precious resource
- **Use only the necessary amount of shower gel, soap, and shampoo** — even if eco-friendly, avoiding waste is always better for the planet

In the Restaurant

- Choose local and seasonal products
- Avoid food waste — you can always ask for a smaller portion

In the Wellness Area

- Respect time slots and rules for wellness treatments
- Reuse bathrobes and slippers when possible

Sustainable Transportation

- To get to Abano or Montegrotto, including the market, you can take the “**Puffetto**” train, which stops directly at our hotel. We have reserved seats for our guests — ask at reception
- **We also offer bikes for rent:** ask at the front desk for prices and availability

Smoking Areas

- If you smoke, please use the ashtrays provided in outdoor areas (pool, bistro, and restaurant terrace) to help keep common spaces clean and protect the environment

Free Time

- Explore walking and cycling paths nearby
- Join our eco-friendly activities (e.g., guided walks and tours)
